

# Wireframes

#1

Ideas for this layout:

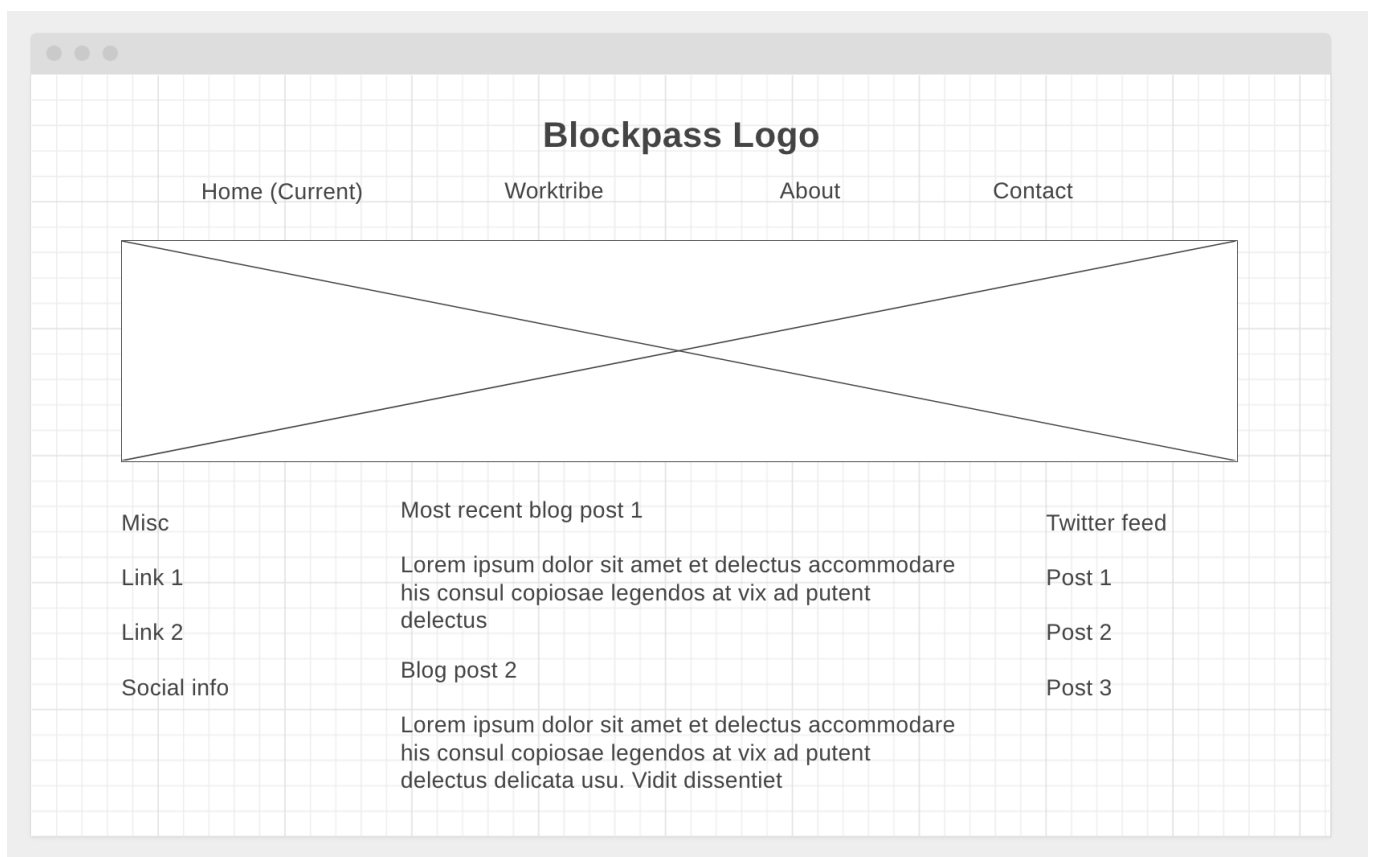

- Stretched image
- Menu items in the middle
- Background info/website purpose/welcome blurb/about displayed on home page (users can scroll down to find out more)
- Recent blog posts not shown on home page

## #2

Ideas for this layout:

- Cover image takes up less space
- Logo placed in centre
- Menu items below logo
- Social proof/twitter feed fill side space
- Most recent blog posts fill centre of home page
- About /background info on separate page

### #3

Ideas for this layout:

- Menu at very top of page and less immediate
- Logo placed in centre with background banner
- Image placed underneath welcome blurb/about/background info
- Blog feed and twitter feed fill left column
